Ref: Haz Mat Training Funding

During the past year the responders in Powell County were able to attend Haz Mat Training put on by Missoula Rural Fire Dept. This training covered awareness level and decon training. This training was funded by a grant.

Some type of funding has to be obtained so that the rural department can receive good training from the Haz Mat teams. Also the Haz Mat teams need funding so they can train together.

If at all possible your support to obtain some funding for this type training.

Thank you,

Bart.
